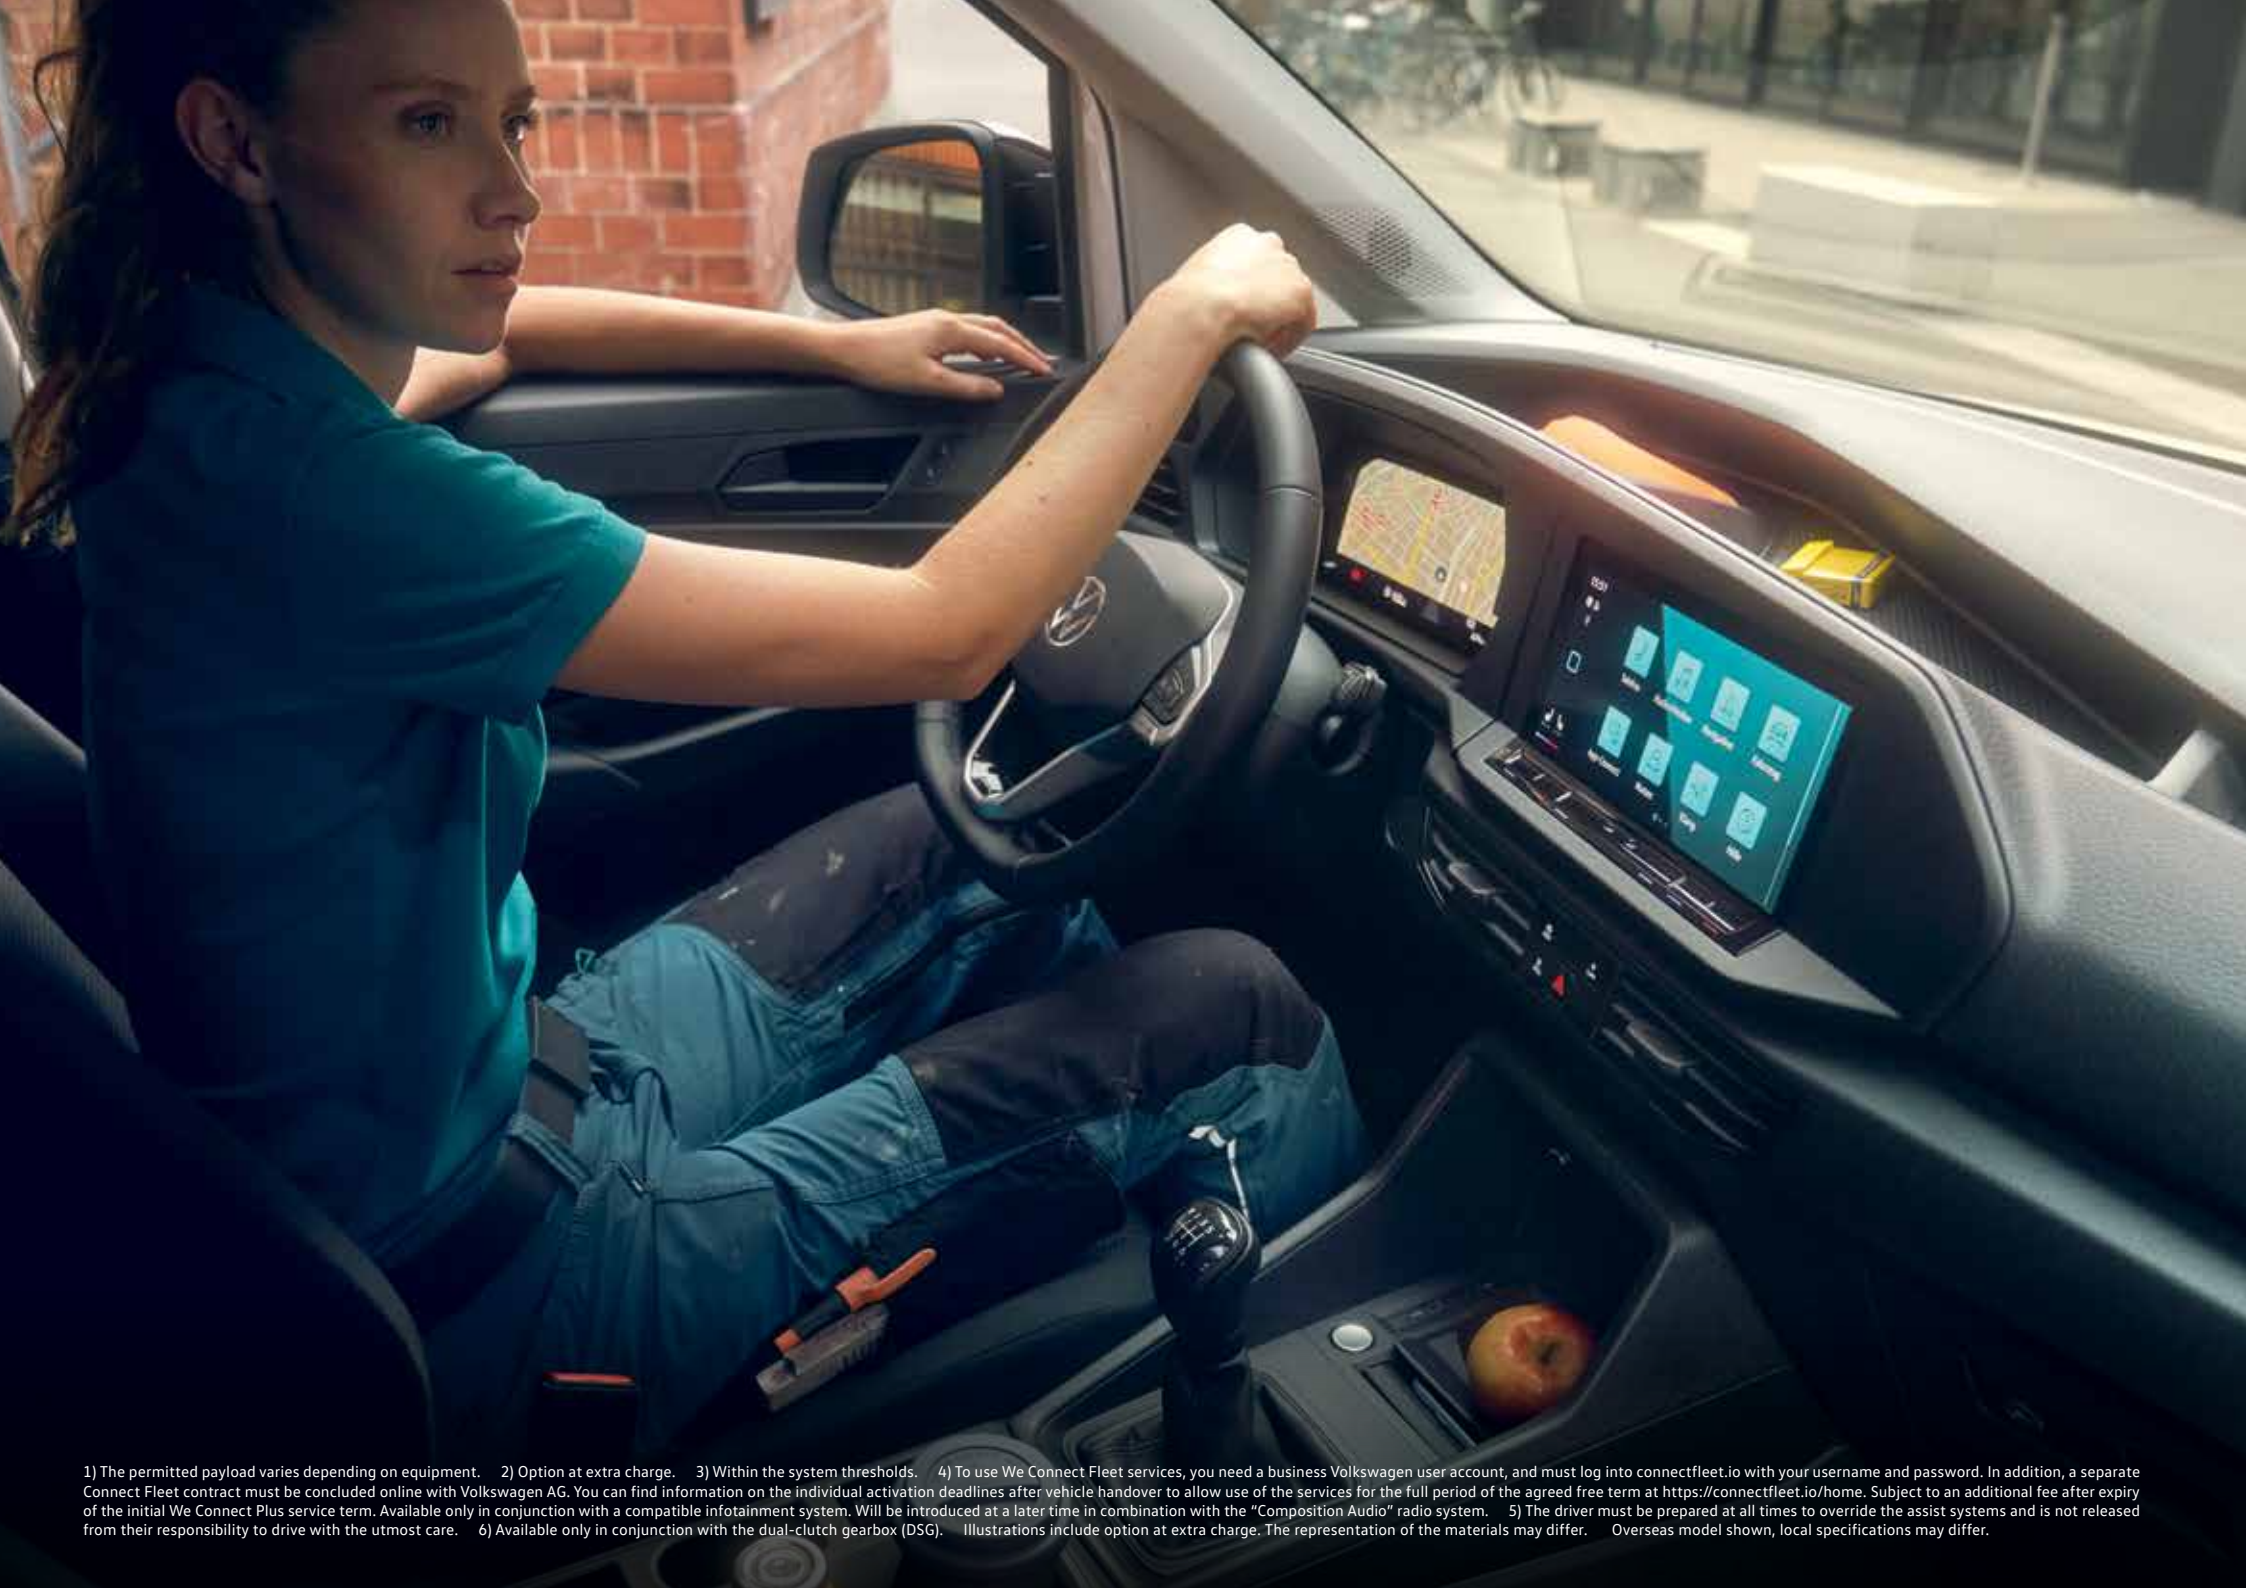
The new Caddy Cargo
H NV 290

The new Caddy Cargo
For whatever comes next

The new Caddy Cargo is just perfect for all those with big plans. The fifth generation of the most popular urban delivery van in its class is now here – even more powerful, more digital and more variable than ever before.

Illustrations include option at extra charge. Overseas model shown, local specifications may differ.

H NV 250



1) The permitted payload varies depending on equipment. 2) Option at extra charge. 3) Within the system thresholds. 4) To use We Connect Fleet services, you need a business Volkswagen user account, and must log into connectfleet.io with your username and password. In addition, a separate Connect Fleet contract must be concluded online with Volkswagen AG. You can find information on the individual activation deadlines after vehicle handover to allow use of the services for the full period of the agreed free term at https://connectfleet.io/home. Subject to an additional fee after expiry of the initial We Connect Plus service term. Available only in conjunction with a compatible infotainment system. Will be introduced at a later time in combination with the "Composition Audio" radio system. 5) The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. 6) Available only in conjunction with the dual-clutch gearbox (DSG). Illustrations include option at extra charge. The representation of the materials may differ. Overseas model shown, local specifications may differ.

New variability
New wider Maxi sliding door, various partitions, payload of up to 723 kg[1)] and versatile floor coverings.

Modern design
New distinctive front end with honeycomb structure, dynamic and clear lines, and numerous enhancements for a lower drag coefficient.

Load compartment with new strengths
Windowless rear wing doors, new electric power closing system for sliding doors and tailgate[2)], optimised LED load compartment lighting[2)], versatile floor coverings.

Innovative transport solutions
New separate load compartment locking system, new keyless locking and starting system "Keyless Access/ Advanced"[2)], "Trailer Assist"[2), 3)], roof load up to 100 kg.

Two wheelbases
The new Caddy Cargo is also available as Caddy Cargo Maxi with long wheelbase and a new wider Maxi sliding door.

Even more digital and connected
New high-resolution Innovision Cockpit[2)], new infotainment systems[2)] with up to 25.4 cm (10-inch) touchscreen, digital fleet management Volkswagen We Connect Fleet[2), 4)] and inductive[2)] charging of smartphones.

Optimised driver's workplace
Universal storage concept, new ergoComfort seats[2)], armrests for driver and front passenger seats[2)], folding front passenger seat with new back panel[2)], 230 V socket[2)].

Proven quality
Use of durable materials, high-quality workmanship and reliable new-generation engines with significantly reduced emissions.

Robust interior
New cockpit: dash panel, door, side and seat frame trim are finished in a dark colour that is insensitive to soiling.

Partly automated driving
Latest-generation driver assist systems, including "Lane Assist"[2), 3), 5)], "Side Assist"[2), 3)], "Trailer Assist"[2), 3)] and ACC 2.0[2), 3), 6)].

Mobility, **in its latest form**

A whole lot of **progress**

A flying start into fast-paced everyday working life. The new Caddy Cargo always gives 100 percent. With particularly smart functions. In impressively strong form. And with extremely versatile capabilities. Whatever the challenges in your job: you can rely on the newly designed new Caddy Cargo and new Caddy Cargo Maxi.

Illustrations include option at extra charge. Overseas model shown, local specifications may differ.

Open Caddy

Ready for a working world full of new challenges. The new Caddy Cargo offers intelligent solutions such as the larger sliding door width in the new Caddy Cargo Maxi.

02 | 03

01 Maxi sliding door. NEW Euro pallets can be loaded lengthways. Together with the longer wheelbase, the sliding door has also increased in size by 141 mm on the new Caddy Cargo Maxi to offer a total Maxi sliding door width of 836 mm[1].

02 Separate load compartment locking system. NEW Opens up only where work is taking place. With the load compartment locking system, the doors to the cab remain securely locked while the load compartment is open.

03 Keyless locking and starting system "Keyless Access/Advanced".[2] NEW Saves having to frequently reach for the vehicle key. Thanks to the automatic locking and starting system, the vehicle key can remain in a trouser pocket when opening and locking doors or starting the vehicle.

Electric power closing.[2] NEW Helps when closing the vehicle. The electric power closing system means that the sliding doors and tailgate need less force when closing because they are automatically pulled into the lock.

Windowless rear wing doors. NEW Offer the kind of flexibility and durability that are most frequently demanded of a delivery van by professionals. The new Caddy Cargo is the first Caddy to come with rear wing doors installed as standard.

Stress, **say goodbye**

Well-organised and relaxed through fast-paced everyday working life. The intelligently designed driver's workplace in the new Caddy Cargo impresses with practical details such as the wide stowage compartment.

01

02

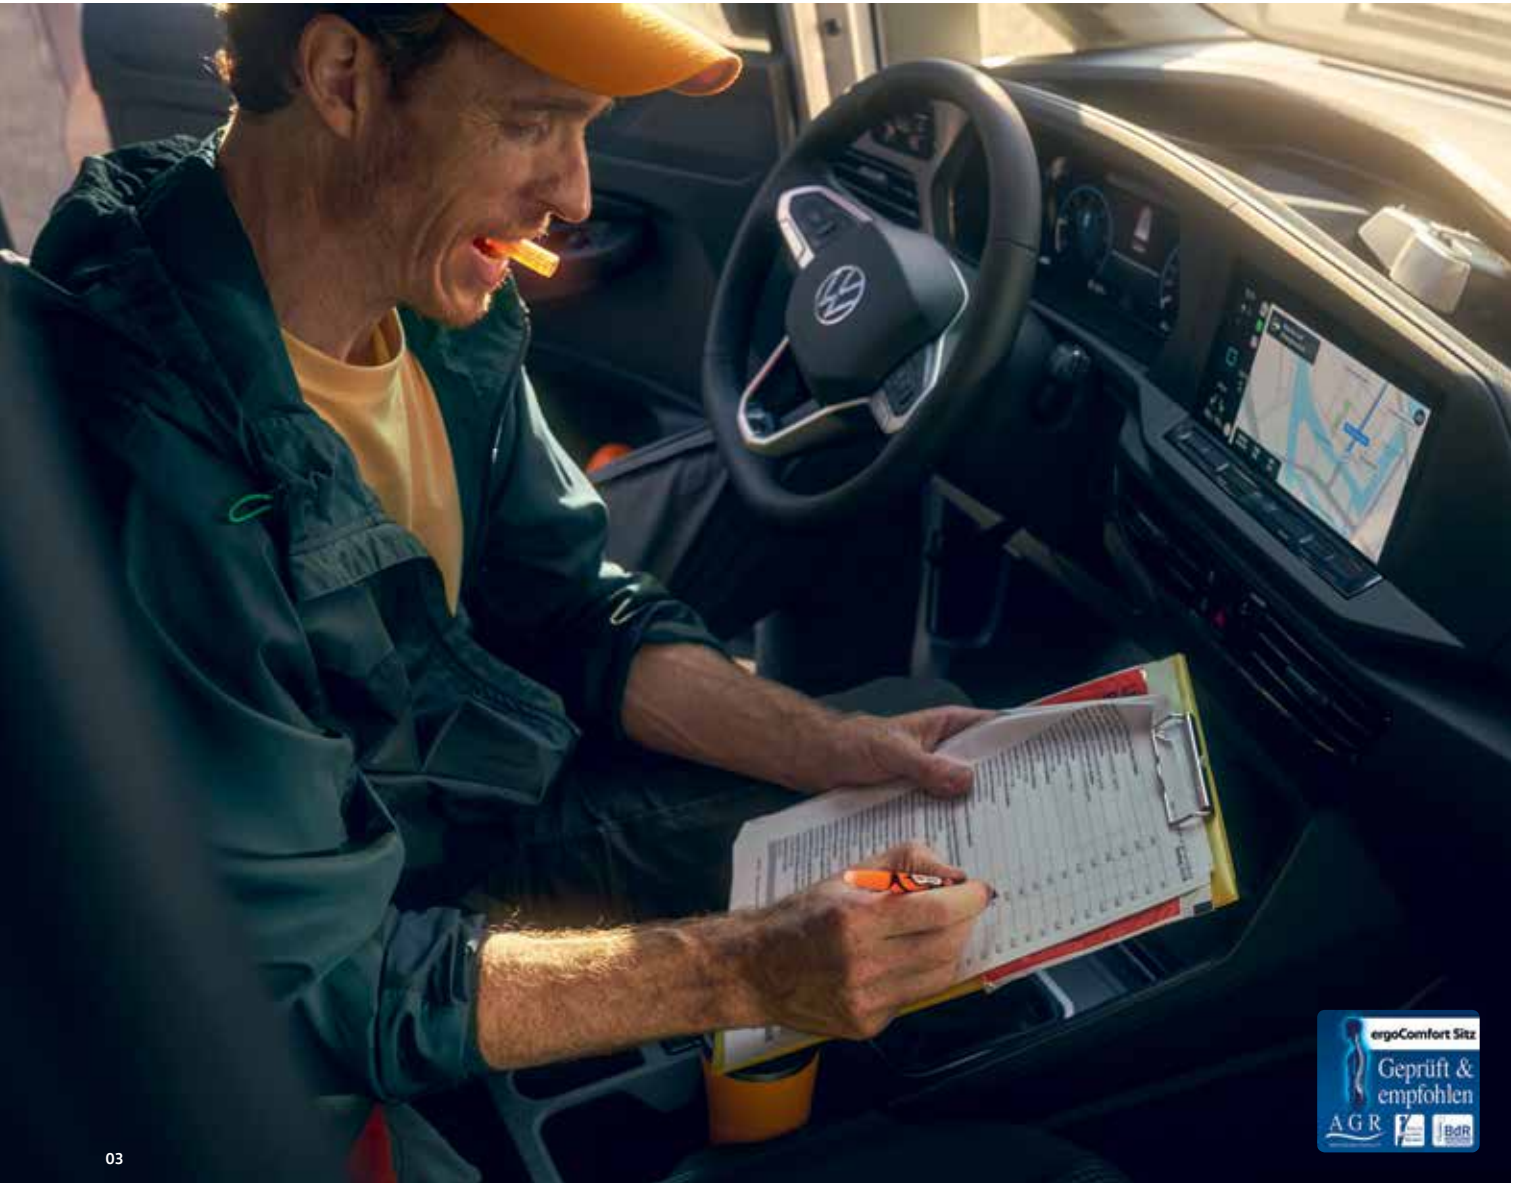
01 Open stowage compartment. Can be used for many different purposes. The open stowage compartment in front of the windscreen is a versatile stowage area for documents and utensils that have to be easily accessible.

02 Drawer.[1)] Opens up new stowage space. The practical drawer is the ideal place for storing items such as a high-visibility waistcoat, torch and tow-rope in a fixed place – so that they are quickly accessible if needed.

03 ergoComfort seats (AGR) for driver and front passenger.[1)] NEW Protect the back thanks to extensive adjustment options. The ergoComfort seats feature an electric 4-way lumbar support and have been awarded the independent "Certified and recommended" seal of approval by the German Campaign for Healthier Backs (AGR)[2)].

Online Traffic Information (We Connect Plus).[3), 4), 5)] Reacts before any time is lost. On the basis of up-to-date traffic information from the Internet, the Online Traffic Information service warns the driver in good time about traffic disruptions, hazards or restricted visibility and automatically determines alternative routes.

1) Option at extra charge. 2) Source: German Campaign for Healthier Backs: https://www.agr-ev.de/en/back-friendly-products/back-friendly-products/2903-carseats 3) Available only in conjunction with a compatible infotainment system. 4) To use We Connect services, you need to have a Volkswagen ID user account, and must log into We Connect with your username and password. In addition, a separate We Connect contract or We Connect Plus contract must be concluded online with Volkswagen AG. For We Connect Plus, you have 90 days from the handover of the vehicle to register the vehicle at portal.volkswagen-we.com and use the services for the full duration of the agreed free period. 5) Subject to an additional fee after expiry of the initial We Connect Plus service term.



03

04

04 Direct-access key module.[3)] NEW
Knows the most important shortcuts. Frequently used functions such as assist systems, climate functions and parking systems can be selected directly via the buttons. Functional scope depending on equipment.

Illustrations include option at extra charge. The representation of the materials may differ. Overseas model shown, local specifications may differ.

01 | **02** | **03**

Digitalised **like never before**

Keep up with developments in the long term. The new Caddy Cargo is optionally available as a fully digital vehicle – with outstanding technologies such as the Innovision Cockpit.

01 Innovision Cockpit.[1)] NEW Offers a fantastic panorama while still in the underground car park. The Innovision Cockpit develops its full innovative power through the combination of Digital Cockpit and navigation system.

02 Multifunction steering wheel.[1)] NEW Has a good grip of things. The multifunction steering wheel is particularly comfortable to hold and impresses with its high degree of user friendliness. Direct control of many vehicle functions such as cruise control system or the infotainment system makes the driver's work easier.

03 Voice control.[1), 2)] NEW Is activated by the voice command "Hello Volkswagen". Voice control is possible for the radio, compatible smartphones, the air conditioning system and the navigation system.

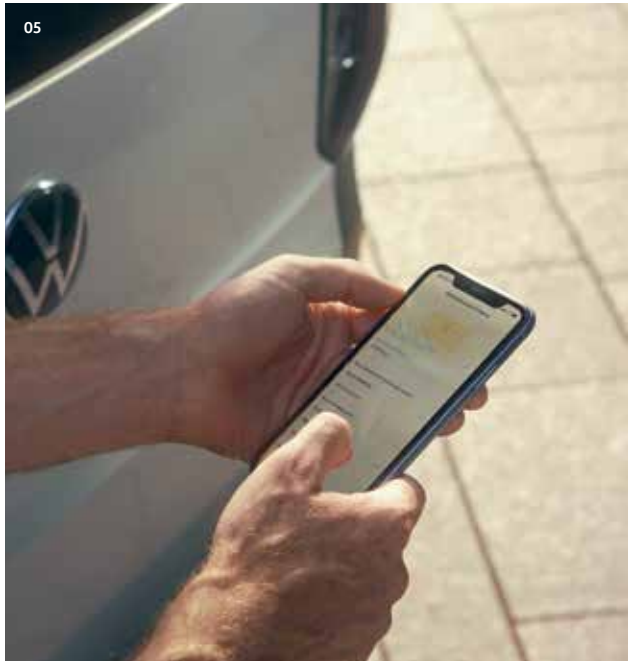
04 "Comfort" mobile phone interface.[1), 2)] Simple wireless connection. Smartphones placed in the compartment are automatically connected to the external aerial, and compatible devices can also be inductively charged.

05 Area Alert (We Connect Plus).[2), 3)] Provides information about whether everything is going to plan. The Area Alert service issues an alert if a vehicle enters or leaves certain areas at defined times of day.

06 Online Destination Import (We Connect Plus).[2), 3)] Saves valuable time. Alternatively to destination input in the navigation system, individual destinations can be sent to the vehicle with We Connect.

07 Wi-Fi hotspot.[1)] NEW Provides a large bandwidth for the mobile office. The integrated Wi-Fi hotspot connects up to eight devices with a stable Internet connection. Data plans can be purchased directly via the infotainment system.

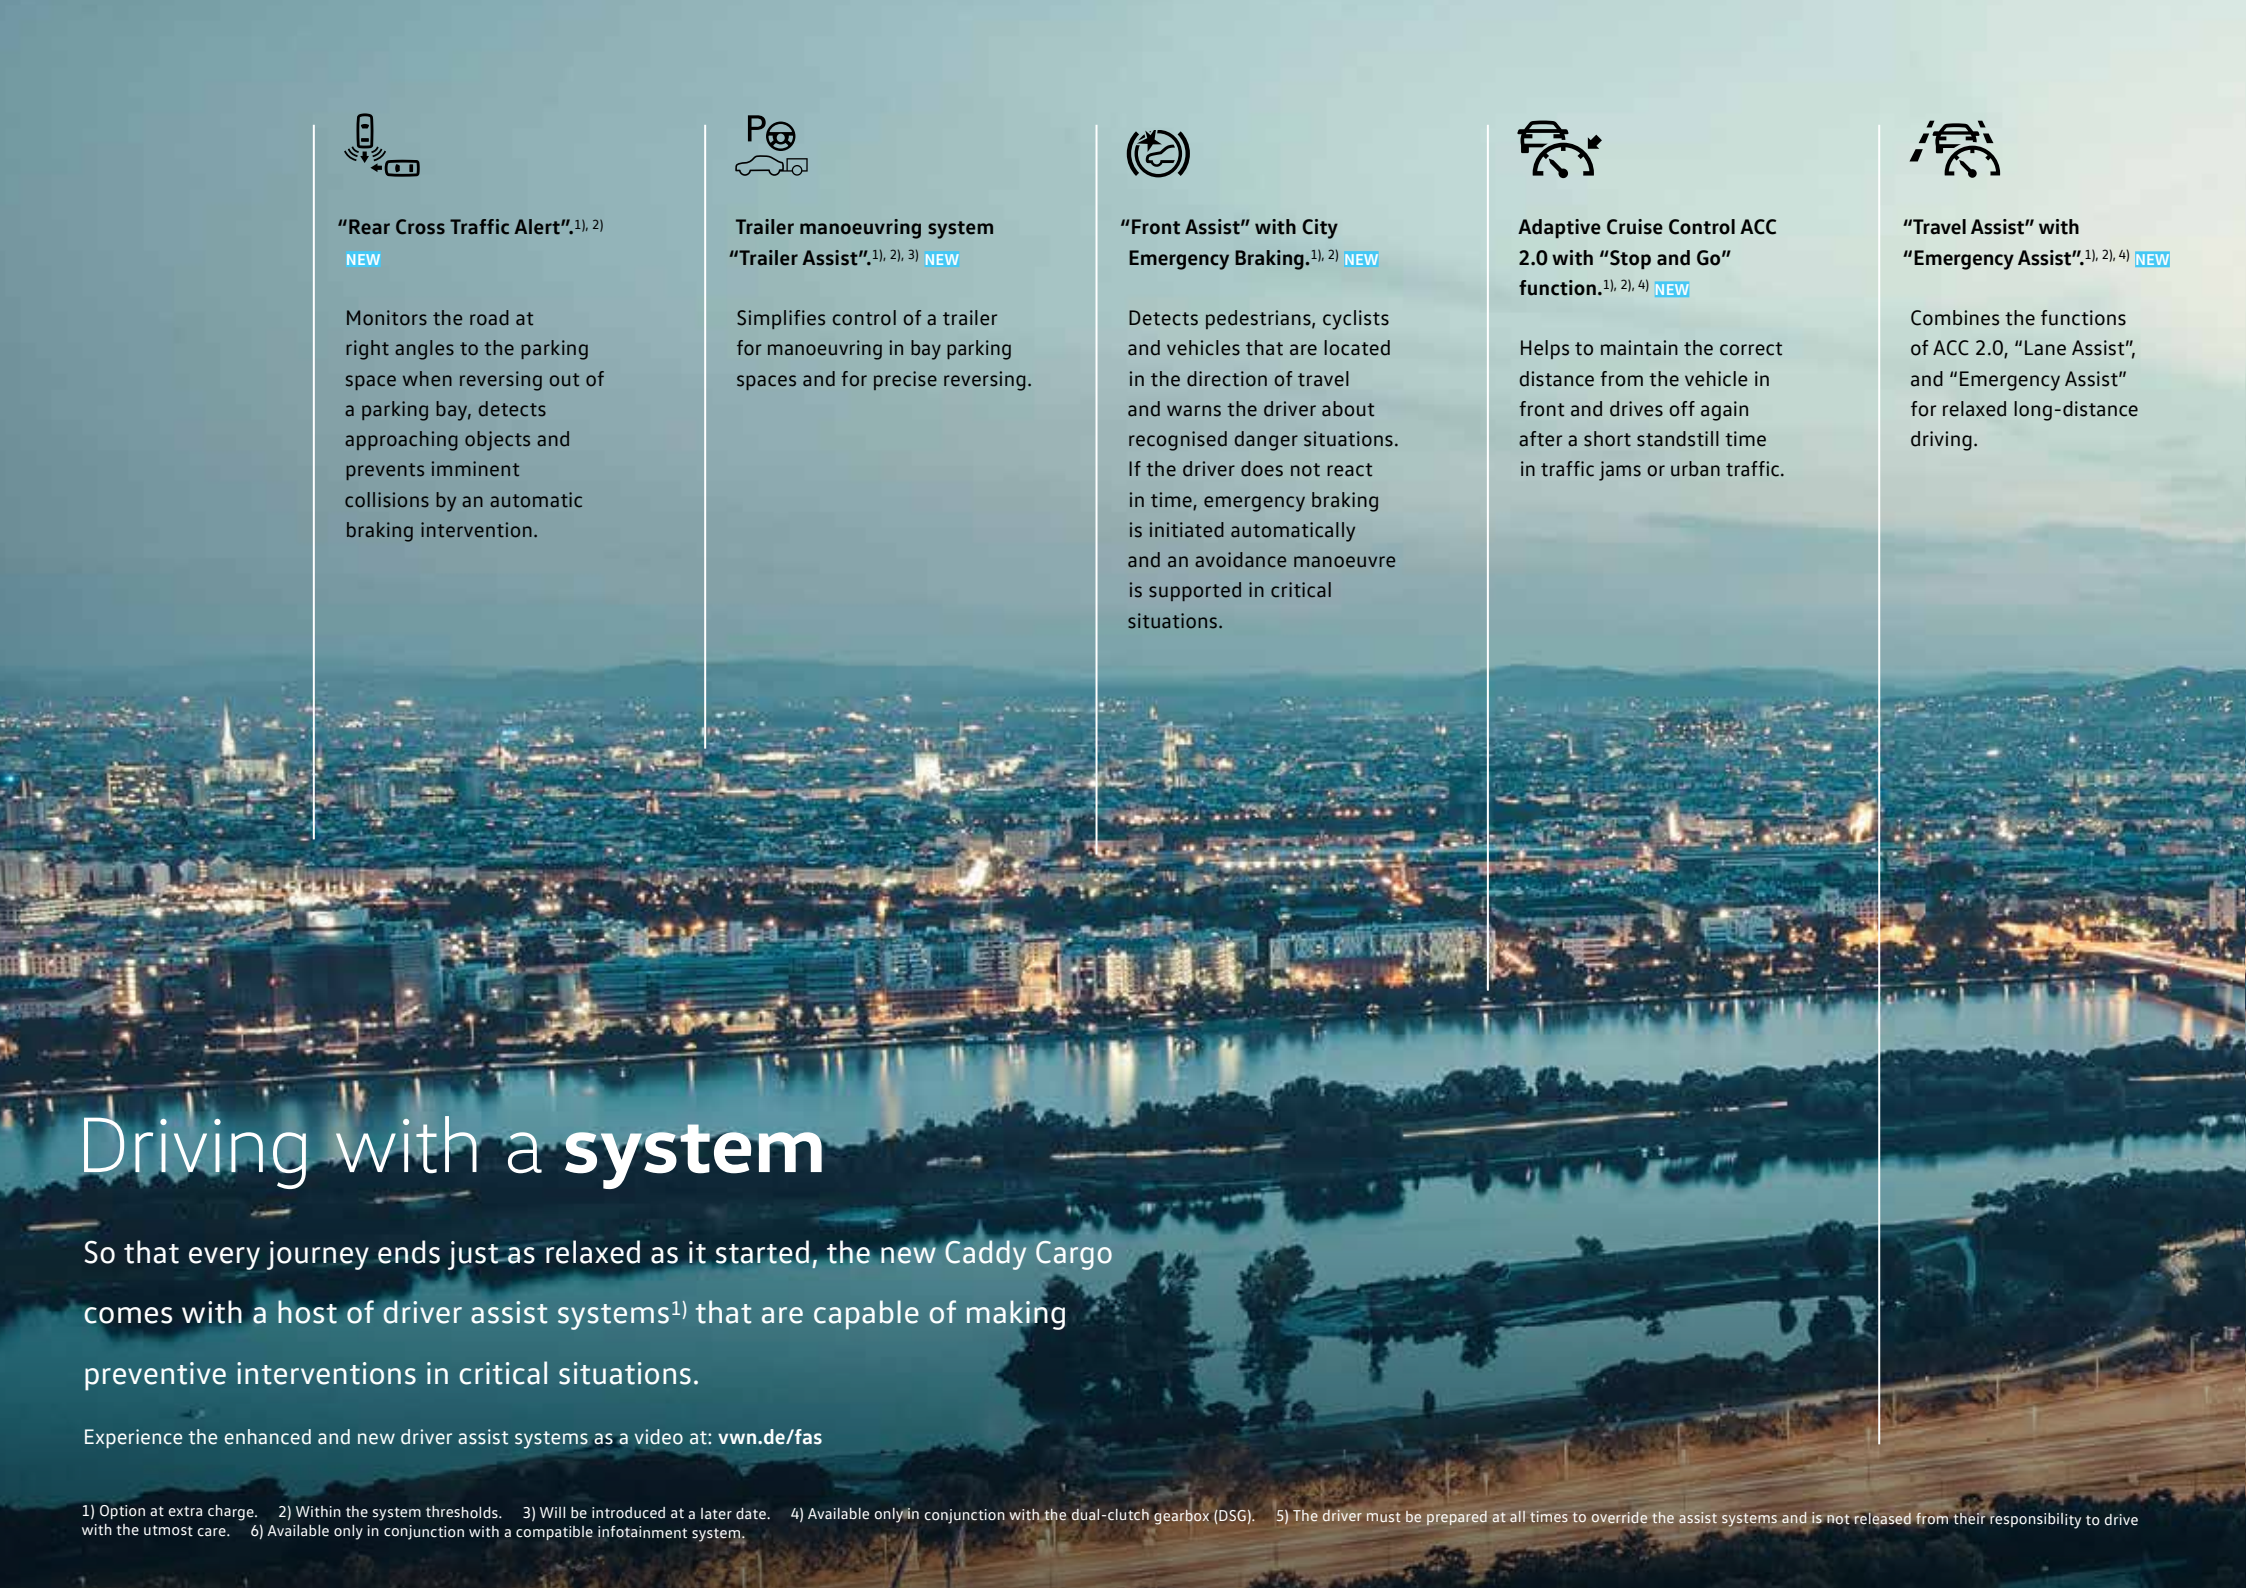
04



05

06

07



"Rear Cross Traffic Alert".[1), 2)] NEW

Monitors the road at right angles to the parking space when reversing out of a parking bay, detects approaching objects and prevents imminent collisions by an automatic braking intervention.

Trailer manoeuvring system "Trailer Assist".[1), 2), 3)] NEW

Simplifies control of a trailer for manoeuvring in bay parking spaces and for precise reversing.

"Front Assist" with City Emergency Braking.[1), 2)] NEW

Detects pedestrians, cyclists and vehicles that are located in the direction of travel and warns the driver about recognised danger situations. If the driver does not react in time, emergency braking is initiated automatically and an avoidance manoeuvre is supported in critical situations.

Adaptive Cruise Control ACC 2.0 with "Stop and Go" function.[1), 2), 4)] NEW

Helps to maintain the correct distance from the vehicle in front and drives off again after a short standstill time in traffic jams or urban traffic.

"Travel Assist" with "Emergency Assist".[1), 2), 4)] NEW

Combines the functions of ACC 2.0, "Lane Assist", and "Emergency Assist" for relaxed long-distance driving.

Driving with a **system**

So that every journey ends just as relaxed as it started, the new Caddy Cargo comes with a host of driver assist systems[1)] that are capable of making preventive interventions in critical situations.

Experience the enhanced and new driver assist systems as a video at: **vwn.de/fas**

1) Option at extra charge. 2) Within the system thresholds. 3) Will be introduced at a later date. 4) Available only in conjunction with the dual-clutch gearbox (DSG). 5) The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. 6) Available only in conjunction with a compatible infotainment system.

Lane keeping system "Lane Assist" with counter steering assistance.[1), 2), 5)]

Detects the vehicle lane by means of a multifunction camera and corrects unintentional departure from the lane as from 60 km/h by corrective counter steering.

"Emergency Assist".[1), 2)] NEW

Reduces the risks if the driver's ability to control the vehicle is impaired. The system initially reacts to inactivity with an acoustic warning and waking jolts and subsequently initiates safe braking of the vehicle.

Rear View.[1), 2)]

Brakes automatically when driving into and out of parking spaces if the Park Distance Control sensors or the rear radar detect an obstacle.

Dynamic Road Sign Display.[1), 2), 6)]

Detects speed limits, no-overtaking zones as well as time- and weather-related restrictions with a special cameraand informs the driver correspondingly.

Lane change system "Side Assist".[1), 2)] NEW

Warns about vehicles approaching from behind or that are already in the blind spot by means of an LED light in the respective exterior mirror.

Overseas model shown, local specifications may differ.

01

*Option at extra charge. Illustrations include option at extra charge.

02

Built for big **jobs**

Tackle the tougher tasks of the day without any worries. Thanks to its rugged materials and innovative technology, the new Caddy Cargo is ready to do practically anything you ask of it.

01 Partition. Keeps your back free with plenty of space. The optimised convex shape of the partition extends into the load compartment and therefore creates plenty of space in the shoulder area for both driver and front passenger.

02 High roof load. Turns the common conception about small vans upside down. With a roof load of up to 100 kg, the new Caddy Cargo turns the roof into a serious loading zone for many different loads.

03 Lashing eyes. Keep their promise. The six folding lashing eyes secure heavy loads rock-solid on the vehicle floor of the new Caddy Cargo.

04 Rubber floor covering. Increases safety thanks to an non-slip surface. The robust rubber floor covering can be simply washed clean in the event of heavy soiling.

03 | 04

Wooden floor.* NEW Can easily cope with even hard blows. The particularly sturdy load area covering made of multi-bonded beech wood protects the vehicle floor and impresses with its water-resistant and non-slip surface.

Robust interior. Remains remarkably unimpressed by daily use. The seat fabrics and trims in the vehicle interior are particularly insensitive to soiling.

Overseas model shown, local specifications may differ.

New **driving force**

Whether on the motorway, in the city or on a construction site: the new Caddy Cargo can be ideally adapted to your driving profile. With engines of the next evolutionary stages, DSG and 4MOTION.

1) Option at extra charge. 2) Not available for all engines. 3) Will be introduced at a later date.
Illustrations include option at extra charge. The representation of the materials may differ.

01 Dual-clutch gearbox (DSG).[1), 2)]
No time for idling. The new Caddy Cargo can be equipped with a 7-speed dual-clutch gearbox for fully automatic gear changes without any interruption in tractive force.

02 4MOTION all-wheel drive.[1), 2), 3)]
Likes to set all the wheels in motion. The all-wheel drive system automatically adapts power transmission to the wheels to the respective driving situation. This is the basis for optimum handling and high driving dynamics, also when driving off-road.

Improved emission control. NEW
When two are better than one. Innovative twin dosing reduces the NO_x emissions of TDI engines compared with the predecessor model. This is achieved by targeted double injection of AdBlue® ahead of the two SCR catalytic converters arranged in series. A special ammonia trap downstream of the SCR system also prevents the slip of excess ammonia.

Efficient engines. NEW Give fuel more power. The four combustion engines of the new Caddy Cargo are among the most efficient and economical TSI and TDI engines that have ever been installed in a vehicle of its class.

02

Overseas model shown, local specifications may differ.

01

*Option at extra charge. Illustrations include option at extra charge. The representation of the materials may differ. Overseas model shown, local specifications may differ.

A better way of mobile **working**

Sudden surprises at the work location are no longer a problem. The new Caddy Cargo makes it easy to deal with all kinds of different tasks right away on the spot.

01 Back panel.* NEW Gives the front passenger seat a new job. When folded forward, the backrest becomes a writing surface with practical stowage options, a rubber band for securing large folders and a smartphone holder.

02 230 V socket.* Satisfies even large energy appetites. The central position on the partition is ideal for charging various devices such as laptops and tools in the cab.

03 LED load compartment lighting.* Reaches into even the darkest corner. The energy-saving LED technology protects the vehicle battery and ensures improved illumination of the entire load compartment.

Illustrations include option at extra charge.

Perfectly **adapted**

It does not matter what job you want to customise the Caddy Cargo for: it offers the best possible prerequisites for this. The new axle system increases the flexibility for conversions thanks to a larger minimum load space width.

02

01

01 Sortimo SR5 for the driver side. Maximises use of the load compartment. The intelligent shelf system allows perfect adaptation of the components to the contour of the side panel. Even if shelves are installed on both sides of the vehicle, it is still possible to load Euro pallets thanks to the slim side profiles.

02 Sortimo SR5 for the front passenger side. A rotary block allows direct access from the sliding door. The rotary block is installed at an angle of 90° to the vehicle equipment and is equipped with three drawers. A folding vice is also mounted on the side profile of the shelf.

01

02

03

04

01 Tailgate with window. Opens particularly smoothly and can also be used as a shelter in the rain thanks to its large opening height. The wide window cutout extends the field of visibility.

02 Rear wing doors without windows. The roof-high rear wing doors are split in the ratio ⅔ to ⅓ and have a maximum opening angle of around 180°.

03 Partition with window and protective mesh. The angled position of the window avoids reflections in the driver's field of vision. The mesh protects the window from damage as a result of abrupt braking manoeuvres, for example.

04 Partition, closed. Fully separates the load compartment from the cab.

1) The maximum trailer weight varies depending on the engine. 2) Within the system thresholds. 3) Available only in conjunction with a compatible infotainment system. 4) Available only in conjunction with the dual-clutch gearbox (DSG). 5) The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care. 6) Will be introduced at a later date. Illustrations include option at extra charge. Overseas model shown, local specifications may differ.
